PROFILE

As a junior Backend developer, I have been learning to use JavaScript and MongoDB to build interesting projects. With some experience in Express.js and Node.js, and a willingness to solve problems, I am eager to continue developing my skills and gain more experience as an intern.

EDUCATION

- Higher Institute of Computer Science and Mathematics of Monastir** 2023-2026
 - Bachelor's degree in software engineering and information systems
- Pioneer High School (Lycée Pilote)** 2019-2023
 - High school diploma (Bac avec mention)

CERTIFICATIONS

- Certified Full Stack Developer, 9antra-The Bridge** june -July 2024
 - Developed a Scalable Carpooling Website Backend:** During a one-month training, I used Node.js, Express.js, and MongoDB to build a robust backend for a carpooling platform. Key tasks included implementing user authentication, managing ride data, and optimizing database interactions, with a focus on API design .

VOLUNTEERING

- Executive Alumni at Tunisia88** july 2023
